

The Advanced Robotics and Mechatronics Research Network, (ARMRN) allows the sharing of expensive infrastructure, while contributing to human capital development and collaboration between Academic sectors and industry. ARMRN is made up of representatives from the CSIR, the University of KwaZulu Natal and the Central University of Technology in the Free State, the Nelson Mandela Metropolitan University in the Eastern Cape, the University of Stellenbosch in the Western Cape, the Tshwane University of Technology in Gauteng and others.
